Unit 14: Lesson 1   **Name_____**

**Guided Learning Tasks 1 and 2** (estimate and measure the capacity of each container).

	Estimate	Measure
Container A		
Container B		
Container C		
Container D		
Container E		

smallest capacity   **greatest capacity**

Write your estimates for the containers in the correct place on this number line

0   100   200   300   400   500   600   700   800   900   1000

smallest capacity   **greatest capacity**

Write your measures for the containers in the correct place on this number line

0   100   200   300   400   500   600   700   800   900   1000
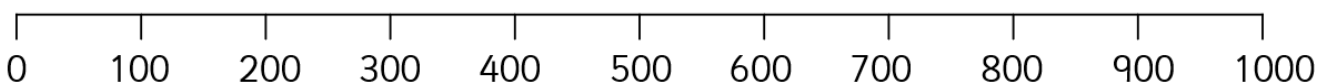

Independent Learning Tasks

	Estimate	Measure	Difference
Container A			
Container B			
Container C			
Container D			
Container E			

You can use the space below for your working out.
