

**Guided Learning Task 1** (find the combinations)

orange and banana		

**Guided Learning Task 2** (measure the masses and find the totals).

<b>Combination</b>	<b>Mass of Fruit 1</b>	<b>Mass of Fruit 2</b>	<b>Total Mass</b>

## Independent Learning Tasks

Use the information in your table to answer these questions.

1) Which combination of fruits has the greatest mass?

---

2) Which combination of fruits has the least mass?

---

3) Which combinations of fruits have a total mass of less than 500 grams?

---

---

---

4) Order the pairs of fruits from least combined mass to greatest combined mass.

least combined mass	—————→						greatest combined mass		

5) What is the difference between the greatest combined mass and the least combined mass? Show your working out.
